SERVICE-related description

SAP NetWeaver ABAP/JAVA

(ehemals SAP Managed Basis)

Version 1.3 (10.10.2025)

1. Designation and object of SERVICE

1.1 Object of Service:

The SERVICE relates to services in the area of SAP NetWeaver ABAP“ and „SAP NetWeaver JAVA“.

The service description for the service “SAP NetWeaver ABAP” also applies to the services “SAP S/4HANA” and “SAP-Legacy-Systeme”.

1.2 Purpose, Scope and Type of the Service:

The parties agree on the type and scope as well as the exclusive purposes of the commissioned data processing of the data by the contractor as follows:

The contractor provides technical and administrative services for the provision and operation of the infrastructure and the technical SAP system based on SAP NetWeaver ABAP and/or SAP NetWeaver JAVA for the client. The basis of the SAP system depends on the client's order. In addition, the contractor shall provide basic administration, monitoring, incident and service request management, and support services, in which the contractor's access to personal data cannot be ruled out.

The provision and operation of the SAP system shall take place, at the client's discretion, in the contractor's data centre and/or in the data centres of public cloud providers. If the provision and operation takes place in a data centre of a public cloud provider, the data processing on behalf of the client, in particular with regard to the provision and operation of the cloud platform and support, is based on the ‘Managed Public Cloud’ service. In this case, the ‘SAP NetWeaver ABAP/JAVA’ service supplements the ‘Managed Public Cloud’ service.

In the context of legacy systems, the client's ABAP systems can be stored for a period defined by the client.

In addition, further optional or cost-based data processing on behalf of the client can be provided by the contractor in accordance with the service description

1.3 Type of Data:

Commissioned Data Processing relates to the following types of data:

The types of data processed in the context of service provision cannot be precisely defined in advance. The types of data depend on the nature of the client's requests, the types and purposes of the client's SAP-systems and on the data provided by the client itself in individual cases.

The following categories of data can be processed in SAP systems, although this is not an exhaustive list:

- Master data (e.g. first name, last name)
- Contact details (e.g. email address, telephone number, fax number)
- Login data (e.g. user name)
- Log data (e.g. time of login, IP address*)*

Special categories of data[1]:

☐ The Commissioned Data Processing does not concern any special categories of data within the meaning of Art. 9 GDPR.

☒ The Commissioned Data Processing concerns the following special categories of data within the meaning of Art. 9 GDPR:

The special categories of data processed in the context of service provision cannot be precisely defined in advance. The types of data depend on the nature of the client's requests, the types and purposes of the client's SAP-systems and on the data provided by the client itself in individual cases. Especially in SAP HR systems, special categories of data (health data, religious affiliation) can be processed.

1.4 Categories of data subjects concerned by the commissioned data processing

The data concerns the data of the following categories of data subjects:

The categories of data subjects concerned by commissioned data processing depend on the purpose of the client's individual system. For example, it is possible, that personal data of the client's employees or customers may be processed. In any case, personal data of employees of the client will be processed.

[1] Special categories of personal data include: Data revealing the ethnic origin, political opinions, religious or philosophical beliefs or trade union membership as well as genetic data, biometric data, health data and data relating to sex life or sexual orientation.
